

## Case Manager Appointment with MHSI Physicians

Recognizing the benefit to our patients when there is a case manager to expedite and/or arrange for testing and treatment, our physicians are happy to meet with them as follows:

- The patient agrees to have the case manager present at a regularly scheduled office visit.
- MHSI physicians will only meet with the case managers when the patient is present. We do not make separate appointments for the case managers.
- A charge of \$25.00 is paid prior to meeting with the physician.
- The charge will include a copy of the office notes for that visit.

This only applies if you have a Case Manager for Worker's Compensation, Auto or with some medical insurances.
